

Criteria

If you would like to be reassessed on a COMPLETED learning goal, you must:

- ① Write out the Learning Goal + Success Criteria
- ② **Highlight** specific success criteria that you struggled with
- ③ Write a brief rationale explaining what you have done to improve your understanding
- ④ See me for additional review questions
- ⑤ Submit all test corrections

Once ①-⑤ are complete:

- create a study note, graphic organiser, etc. to show your preparation.
- submit your rationale, textbook questions (or handouts) + study tool to me.
- make arrangements to come in at lunch to write a short reassessment (you may eat while you write)

If your new mark is BETTER than the old one, it will Replace the old mark.

If your new mark is WORSE than the old one, you will keep 70% of the old mark, but also get 30% of the new one (ie your mark may DROP if you don't prepare)
